I just saw a commercial for STIII that was about 2~3 minutes long (on MTV, of all places) which shows Kirk and the old gang stealing the Enterprise. They then run into a Klingon ship and, for some reason, can't get their shields up. They get the crap blasted out of them. The last scene shows the ship with about 1/3 of the top section blown away. Sounds like the old Enterprise is about to be retired.
