I was watching the movie "Bladerunner" the other day and believe I noticed a very large discrepancy. They say that 6 replicants left the off-world colony. One got "fried" trying to enter Tyrell Corp. on earth. That leaves 5, but they only refer (and kill) 4!!!

Has someone noticed something that I haven't that would explain this? Note that I have not read the book yet (planning to, just haven't gotten around to it yet) and it might be explained in there.

Thanks,
ds
