I'm looking for a reasonably-priced source for the following tools:

 -MACRO-80
 -ZSID

on a SSDD 5 1/4" diskette. (Preferably Osborne format, but I can read
several others, thanks to MicroSolution's UNIFORM). I'm not horribly
hyped--this time--about rapid delivery schedules, as long as they
don't go over about 4-8 weeks. The keynote: they have to be
reliable, and they must beat Lifeboat's prices: $200 for MACRO-80, and
$130 for ZSID.

Please mail pointers to any recommended software dealers, anywhere in
the U. S., to me at this net address. I greatly appreciate any help
that anyone can provide.
