Does anyone have access to, or know of a source for, a MACRO-11 assembler that runs under unix on a PDP-11? A friend is thinking of trying to get TECO to run under unix and needs the assembler.

Any help, please post to decvax!decwrl!rheal!siva!surtees - tell him I sent you, please.

Thanx.

Cheers,

Dick Binder

Yes there are several available, I have a couple the one I am using

now I swiped from MIT.

Harvard Science Center has a MACRO-11 and TECO for V7 PDP-11 UNIX  
which has been in use for 10 years now (it was the summer of '74  
when our 11/45 was installed with pre-V5 UNIX.) Contact John Park  
at the Science Center (decvax!genrad!wjh12!hscvax!park.)
