Is anyone interested in purchasing a used TRS-80 Model I 16K Level II (orig. \$850) Line printer VII (orig. \$399) + interface cable+ cassette recorder + loads of programs (subLOGIC Flight simulator, Space Warp, & about ten other cassettes packed with stuff). This TRS-80 in excellent condition - later model mod. I - never needed service for printer, monitor, or computer !! I never even had to clean the recorder heads!
80 based micro?
