Subject: Post Office Fiasco

Talk about the Post Office, I sent a box full of goods back to the UK once and the bottom got wet and the UK Post Office resealed it with tape and most of the stuff inside got wet and damaged. Now because I put on the contents with the value marked low to avoid TAX, I'll never be able to claim anything back!!!

Again a few years back with DHL, Sent a Pioneer LD player back to the UK and the player was damaged on one corner and the inside cd/ld opening mechanism was shifted out of position. Somehow I think the workers in the cargo industry seem to treat our parcels as footballs or trying very hard to hope that the insides aren't valuable and fragile and toss the parcels 6ft into the air hoping it will fall into a big truck or something.

Will/
