Has something happened to Zelazney? It seems as though it's been an awfully long time since he's published a new novel. He hasn't retired or anything like that, has he?

On a similar note, how many of you remember a novel called "The Witches of Karres"? The ending of the book seemed to set the stage for a sequel, but one has never appeared. It's author, (whose name I've forgotten) hasn't been publishing any other stuff, either. Maybe someday we'll bet the sequel.

Witches of Karres author (Schmitz) never wrote that longed-for sequel. He's now dead, I believe. sob.

James Schmitz wrote "The Withes of Karres", along with some stuff about  
a girl named Telzey Amberly (Is this name close?) that David Palmer's new  
book "Emergence" reminded me of. I vaguely remember hearing that he is dead.

Summary:

[How many other people will post a similar article?]

The author of \The Witches of Karres/ is/was James Schmitz. I have seen (in a B. Dalton's) a number (4? 5?) of books by him about a "psychic Galactic agent" or some such, though I haven't read any of them. Don't know anything about a sequel to \Karres/.
